New York, February 11 .- Money on call easy at 1½@2 per cent. Prime mercantile paper, 4@5 per cent. Sterling exchange dull but steady at 487 for 60 days and 489 for demand.

Bonds-Government bonds were quiet but firm. State bonds were dull and steady. The sales of railway bonds were chiefly for investment, and aggregated \$3,000,000, with moderate advances. A notable exception was the development of decided weakness for Texas and Pacific Rios, coupon in the last hour selling down to 53, at which they closed,

against 55# yesterday. Stocks—Stocks were much less active to-day. The coal stocks suddenly assumed a second place in the dealings, while Erie came to the front with transactions of 76,200 shares. St. Paul was second with 68,600 shares, and Lackawanns, which is only a half stock, came third with 53,400 shares. Contrary to general expectations, the market in the early dealings was strong, but the advances, as a rule, were only fractional. Later there was an alternately upward and downward movement within a moderate range, until in the last hour, when prices were again heavy, but the closing quotations show a net advance for nearly everything on the list, ranging from small fractions to over 1 per cent. Lackawanna and Erie preferred are each up 11, and St. Paul and Manitoba each 1. Western Union is down 1, Louisville and Nashville 1, and Northern Pacific preferred lower. There was special activity in Milwaukee, Lake Shore and Western, which, with sales of 3100 chares, made a net gain of 21. The market closed about steady for most of the list, but weak for the

grangers and coal stocks. The total sales of stock to day were 362,554 shares, including Delaware, Lackawanna and Western 53,378, Delaware and Hudson 11,722, Erie 76,200, Kansas and Texas 5535, Lake Shore 5,598, Louisville and Nashville 10,945, Northwestern 12,842, New Jersey Central 27,850, New York Central 3950, St. Paul 68,605, Union Pacific 5820, Western Union 17,955, Noathern Pacific preferred 5995, Oregon Transcontinental 4030. CHICAGO, ILL , February 11 .- There was active trading in all the speculative pits to-day, and prices ruled generally firmer, though wheat closed for the day easier and about to lower than yesterday. The amount of wheat on ocean passage disclosed an increase of 60,000 bushels, when a decrease had been looked for. In consequence May delivery began at 85½c. The warm and rainy weather prevailing through-out the winter wheat belt was deemed rather ominous for the crop, especially in view of the possibility of a sudden freeze, and tended to stiffen prices. May advanced under good buying to 85%, which was the top figure for the day, dropped off to 85°, railied several times, closing at 85c bid in the latest trading in the afternoon. There was a strong demand for cash corn, and the May option in consequence advauced to 40 c, but dropped off again, closing at yesterday's figures. Oats ruled firm throughout, closing a shade higher. Flour quiet and unchanged. Wheat—prices kept within a rauge of ic, and closed ic lower than yester-day. Sales ranged: February, 791@ day. WEATHER cloudy and rains, PLENTY of mud on the levee. THE Enquirer wasgin and out yester-

THE river here stands 15 feet on the gauge; a fall of 4 tenths RECEIPTS by river yesterday, 372 ales of cotton, 37 bags seed-cotton and

1226 sacks of seed. THE Chickasaw arrived late Wednesday night from White river and returned last evening.

On account of fog and pressure of business the Gayoso did not arrive in time to leave yesterday evening, but will leave to-day at 12 o'clock. THE big Helena, from this port, ar-

rived at New Orleans Tuesday with 3365 bales of cotton, 3334 sacks of oil-cake and 626 sacks of cotton-seed. THE Kate Adams arrived yesterday morning from Arkaneas City with 251

1219 sacks and 77 packages of sundries, and cleared again last evening with a good trip, St. Loves Republican: "The attack on the ice in the harbor by the tuge has been highly successful, and there is now a clear channe" between the ice and the west back of the river along the lace of the levee, from the bridge to the foot of Sycamore street, and extending out falls 200 feet levels. and extending out fully 300 feet. In their struggle with the ice the tugs met with but feeble resistance, the ice being so rotted as to break off in great fields at each attack upon it, and curl-

ing up like so much cardboard." MARINE Journal: The river steamboatmen suffer more annoyances from petty impositions than any other class. those engaged in water transportation. The wharfage tax is a big steal rather than an imposition, which in that case is a word that does not carry with it emphasis enough. The most exasperating petty imposition, yet agexasperating petty imposition, yet aggregating in number and frequency a very heavy tax upon river steamboats, is that class of demands made upon vessels for imaginary services by the colored roustabouts or boat hands through the United States Commissioners, whose fees are dependent upon the success of the claims against ves-sels. The Ethiopian, of course, has nothing to pay for costs if the case goes against him, so the commissioner finds it agreeable to give judgment against the brats. This is invariably done. Therefore river steamers are at the mercy of their co'ored crews, who, upon the slightest pretext, or none at all, just as it suits their whines, fly to a commissioner's office and entersuit. It is safe to say that out of 5000 cases brought against steamers not more than one is just; yet most all of the remainder are decided against the poor vessel owner. There is a remedy for this if the sufferers will write and appeal to Congress for the enactment of a new law that will protect them. Un-less they do act in concert on the matter, they may expect to have the sable-hued denizens and the impecunious commissioners pounce down upon them unal time is no more.
